PERSONAL PROJECTS

Task Manager Web Application

Developed a task management system using ASP.NET MVC and Microsoft SQL Server, offering users the ability to efficiently create, edit, and delete tasks. The application integrates with a database to ensure secure and organized task storage, supporting streamlined task handling.

Tea Shop Online Application

Developed a Tea Shop application using ASP.NET MVC, featuring pages for browsing tea selections, customizing toppings, and managing a shopping cart. Implemented an array list to efficiently handle data, enabling customers to add, remove, and adjust item quantities with ease.

Online Jewelry Shop and Management

Built a jewelry shop management system with distinct admin and user interfaces using PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap. The admin can efficiently manage jewelry items by adding or deleting products, while users can browse, add to cart, and purchase items with ease.

Currency Converter

Developed an app that converts currencies using fixed exchange rates, utilizing a list to store and organize currency data.

SKILLS

 HTML & CSS, JavaScript, ASP.NET & Core MVC, SQL, Java , C , C# ,C++

Unreal engine 5 , Blender , Style3d , META-tailor

Certification and Internship

NICT Solutions Certification
Completed training in database management using MySQL and PHP, along with web design principles.

EDUCATION

Diploma in Computer Science - Jain Polytechnic ,Belgaum   2022 percentage 68.29

Bachelor of Computer Applications - Gomatesh Vidyapeeth

Professional Development

3D Advertisement for Juice Shop

Developed a 3D advertisement using Blender, showcasing the shop's offerings with visually appealing graphics and animations.

Advertisement for Dress and Sarees Shop

Created promotional content using GIMP for graphic design and CapCut for video editing, while incorporating 3D elements from Blender, MetaTailor, and Style 3D to effectively showcase the shop's products
